PROFESSIONAL SUMMARY

Objective: Full-stack web development with emphasis on Laravel and React, combining direct user communication with software engineering best practices.

Software Engineering undergraduate at Universidade Católica de Brasília (UCB), with a technical degree in Systems Development from SENAI-DF. Currently interning at DF Informática, where I develop and maintain web systems, handle direct client support, and gather requirements. Experienced in technical presentations to diverse audiences — including events such as Mundo SENAI, which drew interest from the agribusiness sector. Collaborative, empathetic, and committed to continuous learning.

TECHNICAL SKILLS

- Programming Logic
- Databases: MySQL
- Back-end: Python, PHP, Laravel
- Front-end: HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, shadcn/ui
- Mobile: Flutter, React Native
- App publishing: Google Play Console, Apple App Store Connect
- REST API development and integration; payment gateways (Mercado Pago, Cielo, Asaas)
- Excel/PDF export (ExcelJS, jsPDF, DomPDF)
- UI animations: Framer Motion
- Version Control: Git and GitHub
- Low-code / prototyping: Lovable
- UI/UX fundamentals applied to web interfaces (usability, visual hierarchy, and responsiveness)
- Requirements gathering with users (interviews and needs validation)
- Excel (spreadsheets, queries, and data management)

EDUCATION

Software Engineering — Universidade Católica de Brasília (UCB)

2025.2 – Present | Brasília, DF, Brazil (2nd semester)

Software Engineering — UDF — Centro Universitário do Distrito Federal

2025.1 | Brasília, DF, Brazil · 1st semester completed; transferred to UCB

Academic project: restaurant table reservation and management system — briefing, personas, client interviews, and Figma modeling.

Technical Degree in Systems Development — SENAI Taguatinga

2024 – 2025 | Taguatinga, DF, Brazil (concurrent with high school)

High School — SESI-SENAI DF

2024 – 2025 | Taguatinga, DF, Brazil

EXPERIENCE

Software Development Intern (junior-level scope) — DF Informática

2025 – Present | Brasília, DF, Brazil

- Developed web systems using PHP, Laravel, HTML, CSS, JavaScript, TypeScript, and React
- Maintained systems and fixed critical bugs in business rules, monetary values, and back-end logic
- Performed MySQL database queries and data manipulation
- Contributed to company client projects: API integrations, payment gateways, Excel/PDF exports, and app publishing on Google Play and Apple App Store
- Applied UI/UX principles and visual fidelity to client-requested layouts
- Provided direct client support for requirements gathering, active listening, and issue resolution
- Held screen-share client meetings to gather bugs and feature requests, then implemented the changes
- Participated in planning meetings and project follow-ups
- Applied version control with Git and programming best practices

Professional deliverables — client projects (DF Informática)

Development, integrations, and maintenance on systems delivered by the company to its clients. Company/client projects — not personal authorship.

INO9 Sports — Sports management system (client)

sistema.ino9sports.com

- Built the full-stack system from scratch (Laravel, React, TypeScript, Tailwind, shadcn/ui)
- Gamification (rankings, goals, and arena), internal chat, and a database-driven chatbot/assistant
- Excel/PDF exports (ExcelJS, jsPDF, DomPDF), orders, production, finance, and management reports

Styllos Acessórios — Multitenant system (client)

app.styllosacessorios.com.br

- Built the full-stack system from scratch (Laravel, React, TypeScript, Tailwind, shadcn/ui)

- Multitenant architecture with super-admin, admin, and reseller panels (bags, commissions, catalog, and sales)
- Product management with SKU/barcodes, financials, and PDF export (jsPDF, DomPDF)

iDucali — Management system and leads (client)

sistema.iducali.com.br

- WhatsApp API integration for lead communication
- External purchase links (Hotmart) and cross-industry lead connections via scripts
- Mercado Pago payment integration

Calheiro Orça Fácil — App and web (client)

calheiroorcafacil.com.br | app.calheiroorcafacil.com.br | App Store | Google Play

- Contributed to publishing and maintaining the Flutter app on Google Play (Android) and Apple App Store (iOS) as Calheiro Orça Fácil
- Asaas integration for payment processing
- Built with Flutter and Laravel back-end

Cana Delivery — App and web (client)

canadelivery.com.br · available on Apple App Store and Google Play as Cana Delivery

- Flutter app and web platform for sugarcane delivery, connecting producers, customers, and drivers
- Order, delivery, and payment management (Laravel / API back-end)
- Published on Apple App Store and Google Play under the name Cana Delivery

Psykhedh — Clinic website (client)

psykhedh.com.br

- Institutional website with artificial intelligence integration
- Responsive interface and digital care flows

Autentica by Silvia — E-commerce (client)

autenticabysilvia.com.br

- Online store with catalog and checkout
- Transactional email delivery and Mercado Pago and Cielo integrations

TendTudo Jaru (client)

tendtudojaru.com.br

- Google Maps integration for location and user experience
- Web development with REST APIs and responsive UI

Administrative Assistant & Customer Service — Payroll Loan Company

2023 | Brasília, DF, Brazil

- Queried CPF records and verified eligibility in banking systems (supplementary withdrawal, FGTS, anniversary withdrawal)
- Communicated with clients via standardized messages for prospecting and contract closure
- Organized data and managed records using Excel spreadsheets

Academic and Personal Projects — Software Development

Ongoing

- Judo athlete portfolio sites (React, Vite, TypeScript, Tailwind CSS, Framer Motion): elloapessoa.site, rodrigofalcaojudo.site, ronaldojudo.site
- Personal portfolio: kawehenri.site
- Web application development with Python, PHP, Laravel, HTML, CSS, JavaScript, React, and MySQL

Featured Project: Automated Irrigation System — 2025

- Interdisciplinary project integrating programming, electronics (Arduino), mobile app (React Native), and responsive landing page
- Responsible for the back-end, landing page development, and hydraulic assembly of the system
- Showcased at Mundo SENAI (SENAI's flagship institutional event), at the SENAI IT event, and at the SESI Science Fair, attracting interest from agribusiness buyers
- Led public presentations of the project at all events, communicating clearly to both technical and non-technical audiences
- Technologies: Arduino, Python, MySQL, HTML, CSS, JavaScript, React Native
- Project landing page (AquaFloww): aquafloww.site

CERTIFICATIONS

8 completed certifications — verifiable metadata for ATS screening and credential ID validation (Cisco Networking Academy).

Python Essentials 1

Issuer: Cisco Networking Academy / Python Institute (OpenEDG)

Completed: November 14, 2024

Python 3 | Algorithms | PCEP

Advanced Professional Networking Strategies

Issuer: SENAI-DF

Completed: October 24, 2024 · 8h

Networking | Career | Professional communication

Technical: Condominium Communication Center

Issuer: Intelbras ITEC

Completed: May 14, 2024 · 5h

Intelbras | Condominium communication | Telephony

Introduction to Cybersecurity

Issuer: Cisco Networking Academy

Completed: May 28, 2024

Cybersecurity | Threats | Online safety

Python Essentials 2

Issuer: Cisco Networking Academy / Python Institute / Senai-DF Taguatinga

Completed: August 27, 2025

Python | OOP | Intermediate

Fundamentals of Data Analysis

Issuer: Cisco Networking Academy / Senai-DF Taguatinga

Completed: November 4, 2025

Data analysis | Data | Cisco

CSS Essentials

Issuer: Cisco Networking Academy / JS Institute

Completed: May 19, 2026

Credential ID: e3691833-fe40-420e-9cd1-cdc9ced339fa

CSS | Web layout | Responsive design

Cyber Threat Management

Issuer: Cisco Networking Academy

Completed: May 7, 2026

Credential ID: 4846c9e0-6835-43c6-9dc1-30ad81cb66d9

Information security | Cybersecurity | Cisco

ADDITIONAL COMPETENCIES

Tools and Technologies

- Git and GitHub
- Flutter and React Native
- Google Play Console and Apple App Store Connect
- Lovable (low-code prototyping)
- Arduino and automation projects (IoT)

- Agile methodologies (Scrum and Kanban)
- Microsoft Office Suite (Word, Excel, PowerPoint)

Soft Skills

- Clear communication, technical presentations, and project leadership
- Teamwork and collaboration
- Problem-solving and analytical thinking
- Adaptability and continuous learning

Extracurricular Activities

- Catechist and youth group member — developed teaching skills, patience, and communication with children and teenagers
- Peer mentoring at university — supporting classmates with programming and Git/GitHub
- Regular practice of futsal, football, weight training, and judo — discipline, teamwork, and respect

LANGUAGES

- Portuguese — Native
- English — Elementary / A2 (technical reading and developing professional communication)
