PROFESSIONAL SUMMARY

Objective: Full-stack web development with emphasis on Laravel and React, combining direct user communication with software engineering best practices.

Software Engineering undergraduate at UDF — Centro Universitário do Distrito Federal, with a technical degree in Systems Development from SENAI-DF. Currently interning at DF Informática, where I develop and maintain web systems, handle direct client support, and gather requirements. Experienced in technical presentations to diverse audiences — including events such as Mundo SENAI, which drew interest from the agribusiness sector. Collaborative, empathetic, and committed to continuous learning.

TECHNICAL SKILLS

- Programming Logic
- Databases: MySQL
- Back-end: Python, PHP, Laravel
- Front-end: HTML, CSS, JavaScript, React
- REST API development and integration
- Version Control: Git and GitHub
- UI/UX fundamentals applied to web interfaces (usability, visual hierarchy, and responsiveness)
- Requirements gathering with users (interviews and needs validation)
- Excel (spreadsheets, queries, and data management)

EDUCATION

Software Engineering — UDF — Centro Universitário do Distrito Federal

2025 – Present | Brasília, DF, Brazil

Technical Degree in Systems Development — SENAI Taguatinga

2024 – 2025 | Taguatinga, DF, Brazil (concurrent with high school)

High School — SESI-SENAI DF

2024 – 2025 | Taguatinga, DF, Brazil

EXPERIENCE

Software Development Intern — DF Informática

2025 – Present | Brasília, DF, Brazil

- Developed web systems using PHP, Laravel, HTML, CSS, and JavaScript
- Maintained, debugged, and improved existing systems
- Performed MySQL database queries and data manipulation
- Applied UI/UX principles to improve user flows and interfaces
- Provided direct client support for requirements gathering, active listening, and issue resolution
- Participated in planning meetings and project follow-ups
- Applied version control with Git and programming best practices

Administrative Assistant & Customer Service — Payroll Loan Company

2023 | Brasília, DF, Brazil

- Queried CPF records and verified eligibility in banking systems (supplementary withdrawal, FGTS, anniversary withdrawal)
- Communicated with clients via standardized messages for prospecting and contract closure
- Organized data and managed records using Excel spreadsheets

Academic and Personal Projects — Software Development

Ongoing

- Developed web and desktop applications using Python, PHP, Laravel, HTML, CSS, JavaScript, React, and MySQL
- Created management systems, REST APIs, and responsive interfaces
- Repositories available on GitHub

Featured Project: Automated Irrigation System — 2025

- Interdisciplinary project integrating programming, electronics (Arduino), mobile app (React Native), and responsive landing page
- Responsible for the back-end, landing page development, and hydraulic assembly of the system
- Showcased at Mundo SENAI (SENAI's flagship institutional event), at the SENAI IT event, and at the SESI Science Fair, attracting interest from agribusiness buyers
- Led public presentations of the project at all events, communicating clearly to both technical and non-technical audiences
- Technologies: Arduino, Python, MySQL, HTML, CSS, JavaScript, React Native
- Project landing page (AquaFloww): aquafloww.site

CERTIFICATIONS

- Programming Logic
- Git and GitHub
- Microsoft Office Suite (Word, Excel, PowerPoint)
- Python
- Java
- Databases

Networking Academy

Python Institute

Statement of Achievement

Henrique Kawê

has successfully achieved student level credential for completing the Python Essentials 1 course, provided by Cisco Networking Academy in collaboration with OpenEDG Python Institute.

The graduate is able to proficiently:

- Design, develop, debug, execute, and refactor simple computer programs written in Python 3.
- Think algorithmically to analyze problems and implement them as computer processes.
- Use the syntax, semantics, and the most important elements of the Python Standard Library to write Python scripts and resolve typical implementation challenges.
- Understand the role of a programmer in the software development process.
- Attempt the qualification PCEP – Certified Entry-Level Python Programmer from OpenEDG Python Institute and continue their professional development at an intermediate level with Python Essentials 2.

Networking Academy

Certificate of Course Completion

Henrique Kawê

has successfully achieved student level credential for completing the Introduction to Cybersecurity course.

The student was able to proficiently:

- Explain the basics of being safe online, including what cybersecurity is and its potential impact.
- Explain the most common cyber threats, attacks, and vulnerabilities.
- Explain how to protect oneself while online.
- Explain how organizations can protect their operations against these attacks.
- Access a variety of information and resources to explore the different career options in cybersecurity.

ADDITIONAL COMPETENCIES

Tools and Technologies

- Git and GitHub
- Arduino and automation projects (IoT)
- Agile methodologies (Scrum and Kanban)
- Microsoft Office Suite (Word, Excel, PowerPoint)

Soft Skills

- Clear communication, technical presentations, and project leadership
- Teamwork and collaboration
- Problem-solving and analytical thinking
- Adaptability and continuous learning

Extracurricular Activities

- Catechist and youth group member — developed teaching skills, patience, and communication with children and teenagers
- Peer mentoring at university — supporting classmates with programming and Git/GitHub
- Regular practice of futsal, football, weight training, and judo — discipline, teamwork, and respect

LANGUAGES

- Portuguese — Native
- English — Elementary / A2 (technical reading and developing professional communication)
